

Oracle

Implementation and Integration

Are you are planning to implement your first ERP system and do not have the resources or experience to complete the project? Do you have Oracle's PeopleSoft Enterprise or J.D. Edward's EnterpriseOne system in place and need to add functionality or upgrade to take advantage of new system functionality, but do not have the resources? What should you do? Your first call should be to **xwave**.

Our Knowledge

xwave has extensive experience in the Oracle's suite of Enterprise Resource Planning (ERP) products including PeopleSoft Enterprise and J.D. Edward's EnterpriseOne. In fact, we apply our own proven methodology to your projects. We are able to leverage the knowledge and experience of our more than 60 consultants to successfully implement comprehensive solutions in a quicker time frame with minimum risk.

Our consultants have been using the Oracle suite of applications since 1996 and since that time we have consistently delivered winning solutions for our clients on time and on budget.

We are an Oracle Certified Partner, which means you get outstanding value and maximum return on investment through an efficient and successful implementation. We also invest heavily in training to ensure that our clients receive the best advice, support and implementation methodologies.

Approach

Our approach to implementation has been developed through our hands-on experience gained through many

implementation and upgrade projects. Since we use a number of Oracle applications ourselves, we are aware of the full lifecycle implications of your implementation project and can help you choose the best approach. We are able to offer our clients end-to-end consulting services in all of the Oracle modules.

Pre Implementation

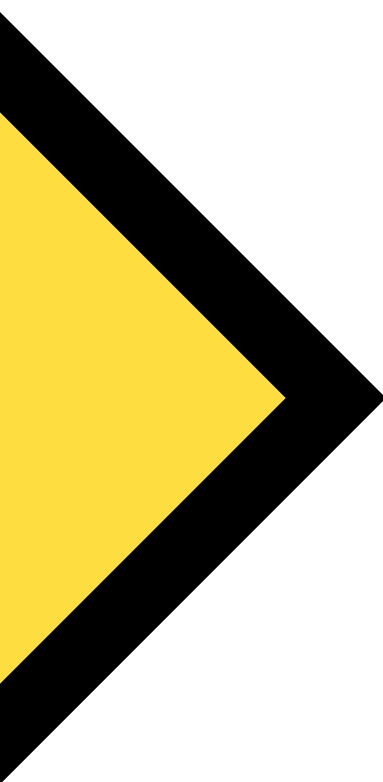

Our integrated team of functional and technical experts will work together with your staff to analyze your current business situation. After careful analysis based on our extensive business and technical experience, we will recommend a strategy for implementation that will ensure your success.

Our services include:

- Fit Gap Analysis
- Strategic Planning
- Technology Infrastructure Planning
- Requirements Definition
- Impact Assessment
- Security Assessment
- Business Process Reengineering

Implementation and Integration

Implementation

We organize the project in a manner that will permit the team to move quickly and efficiently. Each of our project teams is led by senior consultants to ensure a successful outcome. Remember, our goal is to successfully help you reach your goals. We address your issues and work around your business. We want your Oracle application to work for you. Our implementation services include:

- Project Management
- System Configuration
- Data Mapping and Conversion
- Prototyping
- Application Customization
- Application Optimization
- Custom Report Writing (SQR language, nVision, Report Writer, Crystal Reports)
- Web Enablement
- Integrated Systems Testing

We offer peace of mind. We provide you with the knowledge you need to understand the impacts of your implementation, the timeframe for completion, and benefits you will realize once the project is completed. If you trust your implementation project to **xwave**, we will take care of the rest.

xwave Advantage

Think of **xwave** as the supporting cast. Once your solution is up and running, we are still there to provide help and advice, iron out any wrinkles and facilitate future upgrades. We ensure you are happy with the outcome. We offer:

- End User Training
- Production Support
- Problem Escalation/Emergency Response
- Supplemental Resourcing

Think of **xwave** as an end-to-end delivery provider from vendor selection to post-implementation support. We offer one stop shopping for all of your Oracle requirements.

Contact Us

xwave offers services in three key areas: Integration, Infrastructure and Fulfillment Solutions. We are focused on providing end-to-end solutions from systems integration and software engineering, right through to infrastructure services and product fulfillment.

xwave is a business solutions provider with 1500 professionals in locations across North America.
